Notice of Scoping for Environmental Analysis of a Study Recommending a Timbisha Shoshone Tribal Homeland in and Around Death Valley National Park Inyo County, California and Esmeralda and Nye Counties, NV

SUMMARY: Notice is hereby given, in accordance with the provisions of the National Environmental Policy Act (42 U.S.C. 4321 *et. seq.*) that public scoping is being initiated for an environmental

impact analysis process for a Draft Secretarial Report to Congress regarding a proposal to establish a permanent Timbisha Shoshone Tribal land base in and around Death Valley National Park. The purpose of this scoping effort is to identify public issues and concerns, and to assess the nature and extent of potential environmental impacts which should be addressed.

Background

During 1994 Congress enacted the California Desert Protection Act (Pub. L. 103-433), which in part addressed the need of the Timbisha Shoshone Tribe for a recognized land base. The Secretary of the Interior was directed (in Section 705(b) of the act) to conduct a study to identify lands suitable for a reservation for the Timbisha Shoshone Tribe.

As a direct result, a joint Federal-Tribal negotiating team was convened for the purposes of drafting a suitability study. In drafting their proposal, the factors scrutinized to date include: basic tribal needs for a land base (for housing, tribal administration, economic development, and cultural restoration); mandates prescribing federal land stewardship; complementary interests of the Timbisha Shoshone Tribe and the Federal government; geographical constraints; climate and availability of water; mining claims; special resource limitations such as Congressionally designated Wilderness and also Areas of Critical Environmental Concern; and availability of infrastructure such as roads, power, and other services. With due diligence the efforts of this government-to-government team have culminated in a comprehensive integrated draft proposal to establish a permanent Homeland for the Timbisha Shoshone Tribe.

Comment and Approval

As noted, the Department of the Interior including the National Park Service, Bureau of Land Management, Bureau of Indian Affairs, and Bureau of Reclamation have undertaken government-to-government negotiations with the Timbisha Shoshone Tribe to address suitable strategies and actions for establishing a permanent Timbisha Shoshone Tribal land base in and around Death Valley National Park. At this time, it has not been determined whether an Environmental Assessment or Environmental Impact Statement will be prepared; however, this scoping process will aid in the preparation of either document.

As part of this effort, a series of public scoping meetings will be held during May, 1999. California and Nevada cities
